## Expect Record Traffic May 30 and Week-end

### Thousands of Vacationists Will Flock to Lake Region For Holidays

Indications are that Antioch and the Lake region will play host to the largest crowd of vacationists and fun-seekers ever to visit the vicinity next week on Thursday, Decoration Day, and the weekend. The difficulty of travel further north and the fact that a four-day holiday will be enjoyed by many will add to the crowd.

Special preparations are being made at most of the resorts in the region and visitors will be well cared for. State and county police forces will be augmented to handle automobile traffic.

**Urge Care on the Highway**  
Between fifteen and twenty persons will be killed and more than three-hundred and fifty injured in Illinois motor vehicle accidents over the four day Memorial Day weekend, according to the prophecy of Charles M. Hayes, president of the Chicago Motor Club.

This estimate is based on the expected increase in travel over war years and present trend to a national increase of nearly fifty percent in highway fatalities and injuries.

The club president offered little hope in avoiding this toll unless motorists and pedestrians alike cooperated in safety and courtesy. He gave this warning: "Old tires, worn brake linings and other mechanical deficiencies born through long and hard use must be considered every moment that vehicles of this sort are being driven."

Most serious accidents and fatalities occur in rural areas during periods of this sort, according to pre-war studies. The city of Chicago, for example, has often reported no deaths on Memorial days of previous years.

Traffic experts attribute this condition to three factors. Unusual driver fatigue, increased number of careless pedestrians on rural highways and failure of both motorists and pedestrians to appreciate the limitations on sight on unlit highways at night.

## Nationwide Traffic Safety Check Period Started Wed., May 15

To assist in curbing the rapidly rising toll of traffic accident fatalities the police of the United States and Canada will conduct a Traffic Safety Check program from May 15 to July 7. The program is under the sponsorship of the International Association of Chiefs of Police and is receiving the active support of more than 200 corporations and organizations that are interested in highway traffic safety.

While the Police Traffic Safety Check is in progress, police officers will check the brakes, lights, tires, windshield wipers and horns of all automobiles involved in accidents or traffic violations. Drivers whose cars show obvious defects will be admonished to have necessary repairs made immediately.

Under the slogan "Check Your Driving, Check Your Car, Check Accidents," the program will stress safe driving habits along with necessity for keeping automobiles in top mechanical condition.

The traffic problem is growing increasingly bad, according to police officials. In 1945, 288,500 persons lost their lives in traffic accidents, and nearly 1,000,000 sustained injuries. This was a 17% increase over the previous year.

**State to Co-operate**  
Almost 5,000 Illinois motorists have been certified to post bond or lose their driving privileges under the new Drivers Financial Responsibility law, the Safety Responsibility Division has reported to Secretary of State Edward J. Barrett. A total of \$3,180,003.00 has been asked to cover judgment arising out of automobile accidents since the law went into effect.

Certification of motorists to the Safety Responsibility Division is made by the Governor's Department of Public Works and Buildings in cases where motorists involved in accidents fail to have proper liability coverage. Of the 4,959 cases reported (Continued on page 5)

## Lions Golf Tourney Set for Monday, May 27, at Chain O' Lakes

Cries of "Fore" and other expressions, which may not be properly reproduced here, will rend the air next Monday afternoon when the Antioch Lions club annual golf melee gets off to a flying start at 1 p. m. at Chain O' Lakes Country club.

Manager Fred Hawkins of the golf course reports that the grounds are in excellent condition, and some good scores should be made.

Irv. Carey, chairman of the committee, expects a record attendance, and stated that prizes and trophies will be awarded for the best scores. A dinner will be served to the club members and guests at seven o'clock.

## On the Job Training Plan for Vets May Be Started at H. S.

### C. L. Kutil, Vocational Agriculture Instructor, to Teach G. I.'s

Veterans who work with an experienced farmer for a minimum of 2000 hours per year may receive additional remuneration from their government through the Servicemen's Readjustment Act if they submit to an organized course of instruction in farming offered to such veterans in their local Vocational Agriculture High school. The course consists of one session of three hours per week for 40 weeks per year. Classes to be taught by the Vocational Agriculture teacher. In addition to the class training the teacher is to visit each veteran on the job once a month to correlate the "institutional" with "on the job" training.

Some local interest has developed among ex-servicemen and any others who are interested should get in touch with Mr. C. L. Kutil, Vocational Agriculture instructor at the Antioch Township High school or at his home on North Avenue, phone Antioch 296.

Mr. Kutil states that it will probably require several veterans enrolling in the course before such training could be started here at Antioch.

The veteran is paid the established learner's wage by his employer. In addition, the veteran may receive a subsistence allowance from the Veterans Administration not to exceed \$65.00 per month if he is without dependents, or \$90.00 per month if he has a dependent or dependents. In no case, however, shall the wages and the subsistence exceed the objective wage as a trained worker.

T. R. Birkhead, principal at the high school, said today that if enough veterans in other job training programs were interested in studies other than agriculture, that provision could be made to provide training in these subjects.

## Legion Benefit Dance Saturday Is Big Success

Antioch American Legion Post Drum and Bugle Corps and Athletic association dance and party Saturday night at the Legion home was completely successful from every standpoint, according to O. S. Klass, chairman for the bugle corps.

A large crowd of dancers were on hand to enjoy the music of Earl Golz, popular bandleader, and other games and entertainment were well patronized.

A sufficient sum of money was cleared to insure the purchase of uniforms and other equipment for the drum and bugle corps and supplies for the legion's athletic program.

## Sixth Annual Lake County Crow Hunt Set For June First

The Lake County Crow club will sponsor a sixth annual shoot on Saturday, June 1, according to information furnished by J. Milton Coulter, secretary of the club.

Any hunters who wish to participate in the shoot may contact Mr. Coulter at 135 S. LaSalle street, Chicago, or phone Central 7540. Coulter declares the crow menace is on the increase and that as many as 250 small chickens have been killed on a single farm this spring. An award of twenty-five pheasants will be made to the shooting team scoring the highest number of points during the day. One point each is awarded for each crow destroyed and this year, as in the past, twenty-five points will be given for each fox shot. Last year's bag of foxes at the hunt accounted for six of the pests.

## Saturday Is to Be "Poppy Day"

On Saturday of this week members of the Antioch American auxiliary will be on the streets selling the "veteran made poppies" which do so much every year in the disabled veteran rehabilitation program.

Following is an appeal written by Mrs. Lois Mellyain, 4th division poppy chairman.

"Has it ever been your privilege to visit a veterans' hospital, while the men of World Wars I and II were busily engaged assembling those little memorial poppies? Perhaps your answer is "no" and you wonder why we say has it been your "privilege" to witness this sight. If you have never seen those veterans, some of them crippled, some sick in mind, then you do not know the true feeling of gratitude which comes to those who can say, "Thank God, my son, my daughter, or my husband returned physically fit, and I shall dedicate my service to those who deserve far more than we shall ever be able to give them." Those, who because of the fierceness of the battle, have left the greater part of their lives on the field, and have returned to us maimed either in soul or body."

"May we tell you of one veteran of World War II? When we visited him we found that he had had one leg amputated and the misfortune of breaking his other leg. He was busily engaged in making poppies and told us he could make 1,000 of them a day, if necessary. And to quote his own words, he said: "This kind of work sure makes the days go by faster."

"We found patients very eager to make poppies, but they are allowed to do so only by permission of their doctors. The money they receive is often used to pay some outstanding bill."

"We were told in one of the hospitals for mental cases, in which women of World Wars I and II are cared for, that one patient (a World War I veteran) earned \$25.00 making poppies."

"So, as we watch the little red poppies in the making, fashioned by disabled veterans of both World Wars, we renew our pledge, and ask God to give us grace to see that no further shadows may fall across their pathways, and that we may help to bear their burdens even as they have so bravely borne ours. We must not fail them."

## Junior Prom at High School Is Well Attended

The welcome address was presented by Leonard Mattsen and was responded to by Frank Olson. Other speakers on the program were W. C. Petty and T. R. Birkhead.

Music for the promenade and dancing was furnished by Al Klemm's orchestra.

## Harry Quilty Is Reported to Be on Mend

Harry Quilty, son of Mr. and Mrs. Thomas Quilty, of Lake Catherine, is reported to be slowly regaining a good chance for complete recovery from injuries received in an automobile crash here Sunday, May 12.

Quilty, who has been in a Waukegan hospital since the accident, has shown a considerable improvement this week, the gasoline burns which had made treatment of other injuries impossible are now improved enough to allow setting of a fractured arm last week and plans are made to set the fractured leg tomorrow. What was at first thought to be a fractured skull, was fortunately discovered to be only a slight concussion. It is thought that only his excellent physical condition made possible his recovery from the extensive injuries received in the accident.

## 1945 County Revenue from State Is Above Total for Last Year

Lake County and its principal municipalities received \$298,875 in allotments from Illinois state gasoline tax receipts in 1945, compared with \$269,760 in 1944, according to a statistical analysis prepared by Barcus, Kindred & Company, specialists in Illinois municipal bonds. This was an increase of \$29,115.

The financial firm declared the increase was due to rising gasoline consumption in the last six months of the year, following the removal of wartime rationing.

Of the funds distributed by the state in 1945 Lake county's 1945 share was \$191,893 as against \$171,885 in 1944, a gain of \$20,008.

Waukegan and other local municipalities recorded higher allotment revenues. The 1945 totals, with 1944 figures in parenthesis were: Waukegan, \$51,740 (\$47,233); Highland Park, \$22,551 (\$20,503); North Chicago, \$12,338 (\$11,320); Lake Forest, \$10,646.43 (\$9,934.96); and Zion, \$9,707 (\$8,885).

For Illinois as a whole, allotments to counties and cities from 1945 gas tax receipts totaled \$17,649,026, compared with \$16,332,894 in 1944, a rise of \$1,316,222.

Concerning the outlook for 1946, a statement by Barcus, Kindred & Company says: "Illinois counties and towns will benefit from steadily increasing gasoline tax allotments in months to come. These funds will help them meet expenditures for street and highway improvements which were necessarily delayed during the war."

## Common Sense Recommendations

The Central Council of National Retail Associations represents about 250,000 retail stores of every type, which account for more than sixty per cent of the entire retail sales of the country. Therefore, the recommendations adopted by the Council in regard to changes in the Emergency Price Control Act are of vital concern to everyone.

The Council urges abandonment of Maximum Average Price regulations immediately to encourage increased production. It asks that the purposes of the Emergency Price Control Act be clearly stated in the law to the effect that it is the policy of the United States to speed the return to a normal, competitive business economy; that sufficient production is the paramount need of the transition period. It further urged the inclusion of an amendment to end the evil of cost absorption which threatens the existence of thousands of stores. Cost absorption is nothing more than a cheap political trick to hide inflation from the consumer as long as possible by forcing retailers to carry the burden of rising costs out of their own pockets.

The Council recommends that price control be definitely terminated on March 31, 1947, the date on which the Second War Powers Act expires. It also suggests an amendment to the Act creating industry decontrol advisory committees with whom the OPA would be required to cooperate. In addition, this amendment

would oblige the price administrator to make a bi-monthly decontrol progress report to Congress.

Finally, the Council seeks to protect individuals against arbitrary administrative decrees by urging that District Courts of the United States be given jurisdiction over matters at issue between OPA and persons affected by any price regulation or order.

## Staggering Statistics

"Breath-taking," is a mild way of describing statistics on fire losses in the United States.

During the last decade, 100,000 persons have been burned to death, 170,000 burned and disfigured, and \$3,000,000,000 worth of property destroyed. Records show the annual fire loss in the United States exceeds the damage done to England in the two years of the German blitz. Forest fires annually destroy an area equal to all New England. The Coconut Grove fire in Boston caused more deaths than the armed forces suffered in the invasion of North Africa.

There are 650,000 building fires every year. Three-hundred-thirty-thousand of them occur in dwellings, and 40,000 in apartments and rooming houses. Manufacturing plants, motor vehicles, stores and shops, garages and filling stations, hotels and hospitals contribute the remaining 274,000 fires.

In the home the commonest cause of fire is smoking in bed or leaving a lighted cigarette some place where it might ignite inflammable material. Also, placing oily and dirty rags in wooden closets or on shelves, and newspapers for an indefinite period adjacent to wooden walls or floors, are other frequent causes. Rags and papers generate heat if left undisturbed for a long time, and ignite spontaneously. Carelessness with electric wiring is a chapter in itself.

Common sense caution can be the greatest preventer of fire. Until more of it is used by more individuals, America's fire loss statistics will continue to be something that only astronomers can really appreciate.

Kenosha hospital to visit with Douglas Clayton.

Friday evening, May 31, there will be an alumni banquet and dance for graduates of the Union Free high school. This will be the first meeting held since the war and since the list of addresses of former graduates and teachers is incomplete, an invitation is extended to all alumni and former teachers to make a reservation before Wednesday, May 29, if they can be present. They will be made very welcome. An enjoyable evening has been planned with a dinner at 7:30 followed by a program

and then dancing in the gymnasium to the music of the Bessie Barnes orchestra.

## Library News

(By Marion Rigby, Librarian)

"The Takers of the City," by H. R. Hays, is a novel of 16th century Mex-  
ico under the heel of the Spanish  
conqueror. The brutal reality of the  
New World is a great shock to young  
Ricardo de la Fuente, accustomed to  
the polite veneer of European civil-  
ization. Interwoven with Ricardo's  
story, Mr. Hays tells of the struggles  
of Bishop las Casas to free the na-  
tives from their hateful Spanish ex-  
ploitation.

Murray Forbes writes the story of  
a man's burning desire for wealth, a  
desire so great that murder could  
not stay its attainment, in the power-  
ful novel, "Hollow Triumph." Henry  
Mueller gained wealth by assuming  
the identity of his victim, but found  
that he lost far more than he gained.

Ernie Pyle, best loved correspon-  
dent, gives us, after death, a brief  
and brave little book to complete  
the record. "Last Chapter" contains  
Pyle's record of his Pacific adven-  
tures up to his death on Ie Shima.

Mrs. Carl Carlson, worthy matron  
of Antioch O. E. S. Chapter enter-  
tained the members of the Officers  
club at her home at Indian Point  
Wednesday evening. Plans were made  
for a bazaar to be held sometime in  
August. The club will hold a meeting  
every Wednesday at the Carlson  
home. Everyone is welcome to come  
and help with the work. Any dona-  
tions will be appreciated.

Mr. and Mrs. Robert Wilton attend-  
ed a meeting and dinner party of the  
Rebecca Parker club, held at the  
John Ehner home in Waukegan Sun-  
day.

Mrs. M. C. Knirsch, who has been  
the guest of her parents, Mr. and  
Mrs. Walter Selter, for the past two  
weeks, is leaving Friday to join her  
husband, Sgt. M. C. Knirsch, at Boco  
Raton, Fla. Mrs. Knirsch, who has  
been Historical Writer at Chanute

to the Safety Responsibility Division, 1,646 were later revoked by the Public Works Department when more thorough investigation proved involved motorists were properly covered or failed to come under the law.

A total of 1,455 Illinois drivers have lost their right to drive since the new law went into effect; 1,201 persons were suspended during the month of April alone. Driving rights of 339 persons have been restored after proper bond was posted. Release was given by the aggrieved party or investigation proved the motorists was insured at the time of the accident.

Secretary of State Edward J. Barrett today advanced a simple slogan, which, if practiced, would help curtail Illinois' rapid rise in automobile accidents.

It is: "Leave a little earlier, drive a little slower and live a little longer."

"The driver who tries to make up time after a late start divides his attention between the clock and the road," Secretary Barrett commented. "Careful driving requires the undivided attention of the driver."

The Secretary urged motorists to write to his office for copies of a safe driving pamphlet and for a new brochure, "This Affects You" which is a digest of the new Financial Responsibility law. Also available for free distribution, he said, are copies of a pamphlet containing Illinois' motor vehicle laws.

# MILLBURN

Twenty-six members of the Mylo Club with their mothers, enjoyed a Mother-Daughter tea and program in the church dining room Thursday evening. After a welcome by the president Thelma Clark and group led by Mrs. Frank De Young with Mrs. Howard Bonner at the piano Miss Marjorie Doolittle gave the toast to the mothers with a response from Mrs. D. H. Minto. Roll call read by the secretary, Carol Upton was answered by appropriate Mother's Day verses. Mrs. Homer White, who became a mother during the past year, was presented with a corsage, and each mother was given a potted pansy by her daughter. All appreciated the splendid talk by the guest speaker, Mrs. D. W. Thompson, of Gunnee, and the vocal solo "The Old Refrain" by Miss Lois Truax, who was accompanied at the piano by her mother.

Refreshments were served from an attractive tea table with Mrs. Don Truax and Miss Thelma Clark pouring and the decorations on the fourteen card tables were small Maypoles wound in white and pastel colors with 4 tiny matching dolls. The committee in charge of the affair was headed by Lois Bonner, assisted by Mrs. Messersmith, Patricia Hairrell, Lois Truax, Carol Upton and the president Thelma Clark.

Millburn church was filled Friday evening for the concert given by Mr. Paul J. Sifer, of Waukegan, on the new Hammond Memorial Organ. Everyone enjoyed this concert very much.

Mrs. Robert Durr leads the Jolly Jills with eight girls studying flower arrangements. Mrs. Volk recently visited their club giving demonstrations on flower arrangements. Mrs. Robert Murrell and Mrs. Roy Bolton, of Russell, lead the "Russell Roses" with twelve girls in clothing. The mothers of these girls were entertained at their last meeting.

The unit will meet at the home of Miss Vivien Bonner on June 21. The Couples Club met at the home of Mr. and Mrs. Will Bonner Wednesday evening with twenty-six present. Mr. and Mrs. Carl Anderson were co-hostesses for the evening Progressive games were played.

The Rev. and Mrs. L. H. Messersmith left Monday evening for Farnam, Nebraska, where they were called by the serious illness of the latter's mother, Mrs. Ora Davis, who has been ill for two weeks.

Dedication services for the Millburn Memorial Organ were held Sunday evening with Mrs. E. A. Martin at the organ, who accompanied Mr. Frank De Young for his solo "My Faith in Thee," by Wells. The sermon was given by the Rev. Ross Cannon, of the Wilmette Congregational church.

Regular church services will be held next Sunday with the Rev. T. S. Sampson, of Mundelein Congregational church will give the sermon.

Mrs. McAllister Irving was hostess for the May meeting of the Millburn unit of Home Bureau at her home Friday afternoon. The minor lesson "Know Your School" was well given by Mrs. Harold McCord and the major lesson "Care and Repair of Home Furnishings" was presented by Mrs. J. A. Cunningham and Mrs. Carl Anderson with demonstrations and cleaning rugs and they also treated dust cloths and presented one to each person. Thirteen members were present and five guests, Mrs. Petersen, Mrs. Robert Murrell, Mrs. Louise Stewart, Mrs. George Ryckman and Mrs. Orland Raether. The latter joined the unit.

Family Night which was scheduled for Friday evening has been postponed.

Mr. W. C. Upton returned Sunday from a week's trip through Nebraska, Wyoming, S. Dakota, Minnesota and Iowa in the interest of the C. and N. W. Railway Veterans association. Mr. Upton is secretary of this association.

### As we were saying-----

By Jack and Louie

Howdy Folks: This sure is good golf weather. The boys and girls are out making the rounds for sure. (Golf course rounds, that is.)

Golf, that's the game that turned the cows out of the pasture and let the bull in.

The only time you can be sure a man plays a fair game is to watch him play.

Daffy-nation

Golf Course—The best place for a woman to find a husband.

The difference between learning to drive a car and learning to play golf is that when you learn to play golf, you don't hit anything.

It's always swear weather when good fellows golf together.

A nudist should be a good golf player because he could go around the whole course in nothing.

Nothing tried, nothing gained. Why don't you try sending your cleaning to us and gain a lot of satisfaction. You will look your best when we are finished.

## Fill Sardine Can

There is no group of fishes officially bearing the name "sardine." The United States herring, the menhaden and the European pilchard are the small fishes which generally fill sardine cans.

## Forms Differ

Most elements found on the earth have forms which are alike chemically but which differ slightly in weight. By definition these forms are called isotopes.

## Population Doubles

Puerto Rico's population has more than doubled under Uncle Sam's stewardship, and now totals almost two million — 540 people to the square mile. As a result, labor is plentiful and the soil is intensively farmed from the shores almost to the summits of mountains, which rise to 4,000 feet near the island's center.

WHAT ABOUT YOUR SON?

For hundreds of nights and thousands of anxious hours you worried about his safety . . . prayed for his return . . . asked only that he come back to you whole.

Now he is back. Mature as he is, this boy who has seen everything, this lad who came back a man, he still needs good, motherly guidance and advice.

## LIVING IN A "CORD CORRAL"?

Then simply change to *adequate wiring*! Enjoy the luxury of breakfast cooked at the table without this extension cord maze. Eliminate extension cord "corals" forever with conveniently placed outlets.

If you are beset with *double-plugs-on-double-plugs* and unsightly extension cords, find out about adequate wiring. It means no more "lazy" appliances—there'll be enough circuits to operate them efficiently—and the wonderful new ones you are planning to own. It means plenty of convenience outlets to do away with troublesome extension cords. And you'll want multiple switches to light the way ahead as you enter a room.

Plan now for adequate wiring when materials are available—enjoy a new, more pleasant way of living. See us or your electrical contractor and learn how easy and inexpensive it is.

Poor Mix  
Failure to remove all dirt and  
dust from a surface before painting  
or refinishing can be a very expen-  
sive omission. Not only will the  
paint fail to adhere properly in the  
dirty or dusty spots, but the dirt will  
mix with and show through the  
paint, especially if it be white or a  
light tint, and ruin what otherwise  
would be a long-lasting, attractive  
job. After sandpapering, scraping  
or burning off old paint, a final thor-  
ough dusting with a soft brush is a  
sensible and profitable practice.
